

Name: _____

PLATE BOUNDARIES EXERCISE

Directions: Using the images presented in class, SKETCH the following on the above map of the southeast Pacific Ocean.

1. Topography. Draw lines corresponding to the mid-ocean ridge crests and the trenches.
2. Heat flow. Draw a line around the prominent zone of high heat flow.
3. Volcanoes. Locate a few representative volcanoes using open circles (O).
4. Earthquakes. Locate a few representative earthquakes with stars (*).
