

Communication 1610 Rewrite Policy

Students may submit ONE rewritten paper each semester for a new grade in accordance with the following conditions:

- The paper must have been graded on a 100-point scale (unless I granted special permission).
- *I will not increase scores for corrected style and grammatical errors; that is expected as part of your rewrite's baseline score. Consequently, I evaluate how much you have improved your paper by rewriting it.*
- I average together your rewrite score with your previous score (e.g., an 80 and a 90 average out to an 85).
- Your rewrite is **due no later than** one week from the day I hand back the original paper. You should submit a copy of your original graded paper with the rewrite.

The rewrite option does not extend to students who received a "0" because they failed to turn in a paper (unless I have granted some sort of special arrangement based on an excused absence).
